EDUCATION

M.S., Digital Content and Technologies

National Chengchi University

September 2021 - June 2024

Taipei, Taiwan

B.Des., Digital Technology Design

National Taipei University of Education

September 2018 - January 2021

Taipei, Taiwan

Mathematics Education, Attended 1year (Transferred)

National Taichung University of Education

September 2017 - January 2018

Taichung, Taiwan

KEY PROJECTS

Pacific Graphics 2025

October 2025

Visual Design & Coordination

- Designed international conference visual identity
- Created event assets including merchandise, stage design, and signage
- Coordinated design execution across formats and production processes

Illusory Eyescape

July 2024 / August 2025

ACM SIGGRAPH 2024 Poster / TAICHI 2025 Poster

- Interactive system using eye tracking and generative AI
- Investigates how consciousness is translated into language and image
- Explores perception, language, and authorship in human-machine interaction

Friendly Maps

August 2020 / June 2021

Young Designers' Exhibition 2021 / Mobile Application Innovation Contest 2020

- Designed a navigation system that integrates safety factors into route planning
- Synthesized insights from user interviews, surveys, and competitive analysis into design implications

PROFESSIONAL EXPERIENCE

Founder & Owner

September 2024 - Current

Zones Design Consulting Co., Ltd.

- Led end-to-end design across web, product, and visual systems
- Led visual identity and multi-platform design for 33rd Pacific Graphic (international computer graphics conference)

Freelance / Self-Employed

2019 - 2023

- Designed merchandise, visual assets, and event graphics for 10+ events, managing end-to-end production

Teaching Assistant

Spring 2023 / Fall 2022

National Chengchi University - Computer Graphics / Game Design and Development

- Led hands-on sessions and supported student projects through technical and design feedback

Research Assistant

September 2021 - June 2022

Computer Graphics Lab, National Chengchi University

- Conducted research on graph neural network-based stylization and generative image models
- Investigated visual analysis approaches and contributed to early-stage research directions

AWARDS and COMPETITIONS

TAICHI 2025 & TAICHI 2025 Design Competition

August 2025

Poster Presenter / Shortlisted

Hsinchu, Taiwan

Title: "Illusory Eyescape - Visualizing Consciousness through Generative Art and Gaze Interaction"
/ "Unlocking Inner Vision"

SIGGRAPH 2024

July 2024

Poster Presenter

Denver, Colorado, U.S

Title: "Illusory Eyescape - Exploring the Variations of Consciousness through Generative Art and Eye-Tracking Techniques"

Mobile Application Innovation Contest 2020

July 2020

Shortlisted

Taipei, Taiwan

Title: "Friendly Maps"

Academic Excellence Award

2017, 2020 and 2021

National Taipei University of Education

National Taichung University of Education

EXTRACURRICULAR ACTIVITIES

OpenHCI Workshop

July - September 2022

Participant & Project Lead

- Built and maintained the official OpenHCI website
- Led the development of MATELIGHT, a prototype web platform using image recognition to assist designers in material identification

Engineer x Designer Club

2019 - 2021

Member

- Developed front-end and back-end integration skills through weekly collaborative projects

SKILLS

Programming: HTML, CSS, Javascript, Python, C, C++, C#, React Native

Design & Creative: Illustrator, After Effects, Photoshop, Premiere, Figma, Proto.io, Rhino

Interactive Development: Unity, Unreal Engine, Arduino
